

EHLERTBILT TOOL CASES

Ehlert Supply Co.

216 - 220 West Water Street
MILWAUKEE, WISCONSIN

Machinists' Tool Cases at Prices Which will Enable You to Buy

You cannot buy a better built tool case than an Ehlertbilt. Many machinists, on account of the extremely low prices which we are asking, are under the impression that our tool cases are of inferior quality and workmanship. We want to assure you that our cases are second to none. The reason that we can sell tool cases, which are high grade, at the prices quoted is because we are selling direct to the user at prices that dealers are obliged to pay for them. In other words, by buying from us **YOU** are making the profits which the jobber and dealer is making.

Ehlertbilt Tool Cases are not for sale in stores, but you can find our tool cases in nearly every machine shop in the good old United States, yes, and many can be found in Canada, Australia, Canal Zone, England and France.

We have supplied hundreds of our tool cases to manufacturers who did Government work where our cases have passed critical inspection by Government inspectors.

OUR GUARANTEE

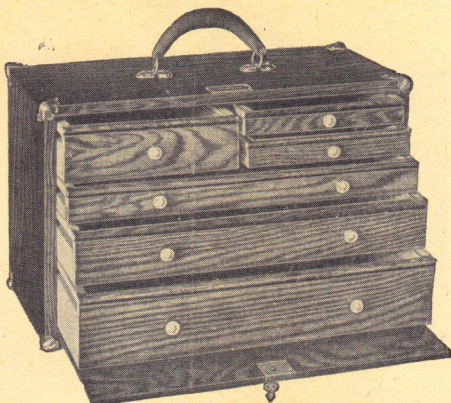

Our tool cases are guaranteed to be exactly as represented, the lumber used in them is select, thoroughly seasoned and kiln dried. The workmanship also is first class in every respect. Every tool case which we sell is sold with the understanding that the customer must be entirely satisfied. We don't want an Ehlertbilt case out of our factory which does not meet with the purchaser's approval.

The arrangement of the drawers is as near perfect as is possible to lay them out, which enables the machinist to place his tools systematically which will assist in checking your tools, also to provide a proper place for each individual tool.

No. 618—18 in. Case, 6 Drawers.

	Why Pay	Our Price
No. 618—Select Solid Oak.....	\$10.50	\$ 6.95
No. 618L—Leatherette	13.50	9.50
No. 618M—Genuine Mahogany	16.00	9.95

F. O. B. Milwaukee.

GENERAL DESCRIPTION

OUTER CASE—Made of Select best quality Oak or Mahogany which is thoroughly seasoned and kiln dried.

FRONT COVER—Which slides under the drawers when the case is open, is made of 3 ply veneer to prevent warping. Oak or mahogany face both sides. On leatherette cases, both sides covered with leatherette.

JOINTS—The outer case or frame is put together with inter-locking double lock joints which are well glued and nailed, stronger than dove tail method. The drawer fronts also have these inter-locking double lock joints, impossible to pull the fronts off when loaded with tools.

GLIDES—On which the drawers ride are mortised into the sides of the case. They are also glued and nailed, which makes it impossible for the drawers to sag.

LEATHERETTE—Best quality imitation leather, black hard seal grain.

HARDWARE—The knobs on the drawers are solid brass. The handle has heavy steel core. The corners are heavy steel brass plated. The locks are Corbin 2 keyed cylinder lock, 1290 changes possible.

FINISH—All oak cases finished in rich golden oak. Mahogany cases in natural mahogany. All have one coat of filler and two coats of high grade varnish. Drawer bottoms on all cases are flannel lined.

Weight 16 lbs., crated 22 lbs. Green felt lining, \$1.00 extra.

DIMENSIONS—Case outside length 18 in. Width, 8½ in. Height, 11¾ in.
